

GPL01

3 in 1 Soft Plyo Box

Dimensions:

20" × 24" × 30" (L × W × H)

Material:

High-density foam core with durable PVC cover

Features:

3 height options in one box, Anti-slip surface, Soft construction reduces injury risk

GPL03

Wooden Plyo Box

Dimensions:

20" × 24" × 30" (L × W × H)

Material:

Heavy-duty plywood construction

Features:

Stable and rigid structure
Interlocking panels for easy assembly, Smooth edges for safety

GPL05

Soft Drop Block

Dimensions:

Approx. 50 × 60 × 75 cm (per block)

Material:

High-density foam with reinforced PVC cover

Features:

Shock absorption for barbell drops, Noise reduction
Suitable for weightlifting training

GPL02

Anti Slip Wooded Plyo Box

Dimensions:

20" × 24" × 30" (L × W × H)

Material:

Plywood with anti-slip surface coating

Features:

Enhanced grip top surface
Reinforced internal structure, Ideal for high-frequency training

GPL04

Wooden Jerk Block

Dimensions (Set):

15 cm / 30 cm / 38 cm
(stackable heights)

Material:

High-strength plywood

Features:

Designed for Olympic lifting
Stackable modular design
Noise and impact reduction

GPL06

Barbell Crash Pad

Dimensions:

60 × 60 × 15 cm

Material:

High-density foam with heavy-duty PVC cover

Features:

Reduces noise and vibration
Protects floor and equipment
Portable and easy to store

GPL07

Soft Plyo Box Set

Heights:

3" / 6" / 12" / 18" / 24"

Material:

Foam core with durable PVC cover

Features:

Stackable design for adjustable height
Anti-slip surface, ideal for progressive training
